structured approach to the teaching of French. My lessons have a wide range of tasks that include speaking and listening activities and also some reading and writing elements. The priority, though, is making you express yourself in French using simple sentences and build on what you will learn on a weekly basis. With my full support, you will notice a great progress in your learning process.

You will enjoy the classes. My students always relate to my warm nature and easy-going personality. They also often relate to my well- paced and informative sessions which always take into account the needs of each learner.

Looking forward to seeing you all!

A bientôt!
