## Ski Trip Les Menuires, France

31st January - 7th February 2015

# HARROW WAY COMMUNITY SCHOOL

## SKI 2015

### GENERAL INFORMATION

#### Background

Les Menuires is becoming increasingly popular year upon year thanks to its high altitude, excellent local skiing and recent investments in improving the resort. It is also a convenient base for the Trois Vallées, one of the world's largest ski areas with a mammoth 600 kms of piste. The efficient interlinking lift system means that expert skiers can travel from one valley to the others in a day and intermediates will enjoy numerous long 'reds' and 'blues' linking the different resorts.

The Skilt proves to be one of SkiBound's most popular Clubhotels due to its absolutely unbeatable location. Not only does Les Menuires offer great skiing in the local valley and easy access to the entire Three Valleys network, but the Skilt, in particular, provides the utmost in convenience and ease of access. You can quite literally ski up to the sun terrace at the end of the day. In the heart of the resort, and close to the many facilities of the Croisette centre, the Skilt overlooks its own large sun terrace and bar, with the ski school meeting point, quite literally a few steps from the terrace.

Our departure time will be early on Saturday 31st January. We will be taken by coach from school to the airport at approx 0330hrs. At Gatwick we will need to check the group in. This is a complicated process and requires everyone to be organised and cooperative. We must be prepared for delays. Therefore, careful planning for any eventuality is essential.

When we arrive at the French airport we will collect our luggage and transfer to the coach for about a 2 1/2 hour drive to the resort.

The size and weight of the bags/suitcases we take are restricted to whatever the airline allows, usually one piece of 'hold' luggage weighing no more than 20kg and one piece of hand luggage (subject to current legislation with security advice). Further information regarding this will be passed to you closer to departure.

Once at the hotel, we will be shown to our rooms to unpack. With no delay or hold-ups, the whole journey should take about 10-11 hours.

#### Pocket Money

You can take whatever amount of **pocket money** you wish, but we recommend up to €100.

Pocket money should only be required for soft drinks and snacks, presents, ski badges (if required) and souvenirs. We ask that students take euros with them on the trip. Students will be responsible for looking after their money until arrival in the resort. On arrival a member of staff will collect money and arrange for it to be locked in the hotel safe. Students will be able to draw on their pocket money each day. Each student will be responsible for looking after their own valuables - such as cameras, phones, watches, MP3s, etc.

## Evening Entertainment

We will also be asking that students put aside money for the week's evening entertainment (last year it was approx 25 euros for the whole week). We will collect the money in advance, but return any not spent. From previous visits I can report that swimming (in- and outdoor), basketball, badminton, tennis, karaoke, quiz and disco nights, bum-boarding and ice-skating have all been available.

## On arrival

Once we've arrived we will unpack and settle in. Students will be expected to keep their rooms clean and tidy, which will be inspected daily. Any breakages will have to be paid for by the room occupants, so they will be asked to provide a list of any existing damage on arrival. Students are expected to act in a sensible manner while in the hotel and to show courtesy and consideration to other hotel users and hotel staff. We will be sharing the hotel with another school, so courtesy towards them will be essential.

## Fire drill

Soon after arrival there will be a fire evacuation drill. You will be told what to do and where the assembly point is. You must carry out this practice quickly and quietly so that you can listen to any instructions.

## First Aid

The staff will be taking a basic first aid kit with them, but if you need to take any other medicines with you these need to be administered by the staff. Put your name on any special medicines that you take. The majority of minor injuries on ski trips are bumps and bruises caused by tumbles. Sometimes students suffer with sore throats because of the dryness of the air, and so a packet of throat sweets and paracetamols are well worth taking.

## Ski Training

After-school ski training is an important feature of the trip. Firstly, the Local Authority insists that all party members undertake sufficient physical preparation and fitness training before they are allowed to go on the trip. It is also a valuable way for students to get to know each other and for staff to be able to pass on important information.

The 10 x 1 hour sessions will commence on Friday 10th October between 3.00 and 4.15pm in the Gym or Sports Hall. PE kit must be worn. **These sessions are not optional** and all party members are expected to attend.

## Dry slope lessons

Matchums dry ski slope has been booked for Friday 28th November (Inset day) to allow students to master the basics before arriving on the slopes. The 4 x 45 minute sessions will cost £38 including transport to and from the venue. The dry slopes provide excellent value for money, as students will be able to progress more quickly in the resort.

## Ski Clothing

## Outer Garments

## Under/Inner Garments

The items listed below are things that you should consider taking on a skiing holiday. It is not necessary to spend a small fortune, although ski clothing, being very fashionable, does tend to be expensive. We suggest you think about buying ski clothing not just for your holiday, but to serve as general winter clothing as well. If you are buying items for your son or daughter, make allowances in sizing so that they will be of use during the following winter, or even your next skiing holiday. Outer garments (i.e. jackets and ski-pants) can be hired, and if this is your first time skiing, hiring is a good idea. You may already have several items of clothing which are suitable without needless duplication. You should ensure that all inner/under garments are made with technical fabrics that let your skin breathe and transport moisture away from the body, which helps to regulate your body temperature. Party members **must** have all equipment before departure. **Boots, skis and helmets** are supplied and fitted at the resort.

While we all wish for heavy snow blizzards the **week before** departure and soft, fresh snow under blue skies **during** our trip, there is of course no way that we can guarantee this! You should bear this in mind when planning what to take.

**SKI JACKET OR SUIT** Should be snow-proof, have an elasticated fit at waist and wrists, have a suitable lining to retain body heat and have a covered zip fastener. It also helps to have a 'tall' collar with built-in hood and zips on all pockets.

**SALOPETTES OR SKI PANTS** Should be snow-proof, fit snugly at waist, have elasticated leg bottoms or inners, and have sufficient lining to retain body heat.

**HAT** A hat is vital in extreme cold as 70% of body heat is lost via your head and will be needed during outside activities.

**GLOVES OR MITTENS** Should be specialist ski gloves and snow-proof, elasticated at wrists and be lined for warmth. Mittens are generally much warmer than gloves.

**GOGGLES AND SKI SUNGLASSES** Goggles keep your face warmer than glasses and are better in poor visibility. Sunglasses tend to help you stay cool in warm conditions. Both must be specialist items to filter harmful sunrays and must be worn while skiing. **Both of these are required by all party members.**

**APRES SKI BOOTS (OUTDOOR SHOES/BOOTS)** Useful and comfortable for getting around a ski resort, although not essential.

**SCARFS, SNOODS OR NECKWARMERS** Essential on cold, windy days. If you take a scarf we suggest a small one rather than a long woollen one.

**SWEATSHIRTS OR JUMPERS** Best if made from cotton, wool or specialist outdoor gear.

**VESTS & T-SHIRTS** Cotton or thermal is best.

**UNDERWEAR** Cotton or thermal is best.

**LONGJOHNS OR TIGHTS** Useful on extremely cold days.

**SKI SOCKS** **Do not use nylon sports socks!** Tubular socks with no heels are generally more comfortable as they have no seams that might rub. These are specialist ski socks and are quite cheap.

**INNER GLOVES** Thin thermal inner gloves are very useful additions as hands tend to be the first part of the body to get cold.

**DAILY ROUTINE**

0730 hrs	'Rise and Shine'
0800 hrs	<b>Breakfast</b>
0830 hrs	Get prepared for skiing. Tidy room
0900 hrs	Go to the boot room and get ready
0930 hrs	Meet with Ski Instructors - skiing lessons begin
1200 hrs	<b>Lunch</b>
1330 hrs	Second ski session with instructors
1600 hrs	Finish skiing
1630 hrs	Return to hotel - showers!
1645 hrs	Collection of pocket money from member of staff (if required) Free time - shopping, reading, resting, room tidying. (Rooms will be inspected daily!)
1900 hrs	<b>Dinner</b>
2000 hrs	Evening entertainment - swimming, ice skating, disco, quiz, etc.
2200 hrs	Return to hotel - BEDTIME
2230 hrs	Lights out!

This is an outline of a 'typical day', but timing may change due to meal times, ski school lessons, or outings to places of interest. Late nights are not desirable due to the very tiring nature of the activity.

Hotel meals may not always be to everyone's liking, but eat plenty. Don't be too fussy or unadventurous; if you want to ski every day, you will need a lot of 'fuel'.

Always be ready on time. Do not keep other people waiting just because **you** can't be organised. Remember to carry your lift pass with you when skiing.

Be organised with your room key – check that you have everything you need before leaving your room as you don't want to be the one responsible for making your group late for lessons!

**SKI TRIP CODE OF CONDUCT**

The following list of rules is intended to make clear to all concerned that you will be guests in a foreign country and not just representing your school, but your country too! Please remember that other British school parties will be judged by your actions. You will be living in a close knit community in the ski resort so it is important that you behave well at all times and are considerate towards others. A venture of this kind demands the co-operation and good sense of all concerned and, to ensure the wellbeing and enjoyment of the whole party, the following rules **must** be complied with:

1. Instructions by Party Leaders must be obeyed without delay.
2. Punctuality is essential. Be ready on time for all programmed activities. Any delay you cause may result in frustration, a cold wait or disappointment for the rest of the party.
3. No students are to venture into areas forbidden by the Local Authorities, Ski Instructors or the School Staff.
4. Ski Instructors will be considered in the same light as teachers and must be obeyed at all times.
5. Courtesy and good manners will be expected towards all hotel staff, including maids, waiters and resort reps.
6. Students will not be allowed to smoke.
7. Students will not be allowed to purchase alcoholic drinks.
8. Ski boots must not be worn in the hotel.
9. Bedtimes will be strictly obeyed. (In ski resorts a quiet rule usually applies after 10.00pm.)
10. Unnecessary movement between hotel rooms will not be tolerated.
11. Any damage to hotel property will be paid for immediately by the people responsible.
12. All electronic games consoles and music/MP3 players must be used with headphones.
13. Purchase of knives or other dangerous articles such as fireworks will not be allowed. (The importing of 'flick-knives' is a Customs offence.)

Your co-operation in exercising these rules is expected. Failure to comply with them will result in appropriate action being taken by the Party Leader. **THE PARTY LEADER RESERVES THE RIGHT TO IMPLEMENT ANY ACTION IN SUCH CIRCUMSTANCES TO ENSURE THE SAFETY AND WELLBEING OF THE REST OF THE PARTY.**

Actions could include the withdrawal of pocket money; confinement to apartment/hotel; even being sent back home. These measures are not expected to have to be used, but remember, the Party Leader will have no hesitation in implementing such actions should the circumstances warrant it.
