"he fulfilled his election pledge to end the war"

# # Dare Not To Swear

## So what is Dare Not to Swear?

Year 8 student council feel that there is too much pointless swearing at break and lunch times. We have worked together with Year 10 to understand why people use this language.

# Student Council

## So what have we done?

Year 10 presented some work from their Power of Language day to Year 8 in Assembly. They looked at other alternatives for swearing and when it is inappropriate.

Year 8 and Year 10 have then been fundraising. We hope to buy Harrow Way Charity bands that students can buy and wear as a pledge to reduce unnecessary swearing in school.

# Swearing and Science

Profanity increases pain tolerance: in a 2009 study, scientists at Keele University found that subjects who submerged their hands in ice cold water felt less pain and were able to keep their hands in the water longer when they swore than when they used “clean” language.

# Why should we Dare Not to Swear?

- Job prospects
- Its offensive
- A time and a place
- Good example to younger students and siblings
