New Senior Prefect team unveiled - page 5

Year 7 reward trip to Wembley

Dedicated Year 7 Football Club players enjoyed a reward trip to Wembley last week to see the national team in action against Ivory Coast. The boys were a credit to the school, soaking up the superb atmosphere in the stadium with England winning 3-0.

At the end of a very busy term, it is important to reflect on all that has been achieved. Harrow Way is truly inclusive and fosters students' talents which is very apparent when I read this newsletter, the weekly eNews and when I look at our website.

Over the past two years of the pandemic, we have seen the education sector at its tireless, principled best. The spring term has been one of the most challenging terms of my career. I cannot pretend it has been easy, but it has been made a lot easier by the dedication, flexibility and 'can do' attitude of Harrow Way staff. When I take the opportunity to reflect back on the last two years and take a moment to acknowledge and applaud all that we have achieved in what have been

the most challenging of circumstances. I could not be prouder of the way that our students, staff and wider community, including you our parents and carers, have risen to the challenges we have all faced.

"Thank you for all your ongoing support."

Attendance

We all know that every student needs to be in school learning as much as possible; if they are not, they simply cannot make the progress they are capable of. Unfortunately, over the last two years poor attendance has become a much bigger problem across the country and we are not immune to that trend here at Harrow Way. It is important that we all recognise the need for our children to be in school regularly, not only for educational reasons but also for their social development. Even those students who miss the odd day soon fall into the category of being Persistently Absent.

That is why all Tutors and Year Group Teams are currently working with specific cohorts of students, as they are currently classed as Persistently Absent having missed over 10% of school so far this year (for reasons other than Covid absence). This is because with good attendance for the rest of this year they can move out of this category. Great attendance is undoubtedly one of the easiest ways to give your child every chance of success and, as a school, we will do all we can to secure attendance rates that allows that to be the case.

Storm Eunice

On Friday morning the 18th February, the LA was notified that the Met Office weather alert status for Hampshire had been raised to a RED alert meaning a threat to life. Our Business Manager and site team did a fantastic job clearing the site after the impact of storm Eunice. The marquee is beyond repair! We also had broken windows, skylights and fire doors and one of the new solar panels has been blown off. The site was bustling during half term, with various contractors repairing the damage to get the site ready for the start of the second half term.

The governing body

has continued meeting (virtually) this spring term. It is important during this time of constant change and uncertainty that governors continue to carry out our role and to provide support to the school and I can't thank our governors enough for all the help and guidance they have offered me over this time.

Leadership and Learning Partner annual visit

Our LLP (Leadership and Learning Partner) visit from the Local Authority, took place this term. The purpose of the annual visit was to moderate and ratify the school's self-evaluation process. During the visit an extended discussion was held with me regarding the school's internal data and a learning walk was carried out to view the school in session. Meetings were also held with middle leaders, teachers, students as well as a learning walk of KS3 and KS4 classes.

"The school continues to have strong leadership capacity across all levels."

"The school is well organised with clear systems for review and quality assurance."

"There is a very calm, purposeful feel to the school where students are safe and happy, which leads to good learning."

"Students are keen to do well. They enjoy their lessons and appreciate the support and encouragement they get from staff."

"The middle leaders interviewed are proud to work at Harrow Way. They provide a rich curriculum and set high expectations for all students in their areas. Leaders have designed an ambitious curriculum."

Staffing

We have welcomed back from maternity leave:

Lyndsey Walker (Lead Practitioner and Curriculum Leader for Dance)

Chloe Campbell (Science Teacher)

Sara Crossley (Year Leader Year 11 and Science Teacher)

Vikki Seren (Assistant SENCo).

We say goodbye to my wonderful Family Partnership Manager Janice Buckley.

Janice will be retiring after 14 years at Harrow Way. Over my time as Headteacher her undoubted commitment and expertise has made a huge difference to Harrow Way students and families. This year Janice was recognised at the annual Hampshire Education Awards. The Awards recognise and celebrate the contribution of staff and volunteers within the county's education system, and the real difference their work makes to the life opportunities of children and young people. Janice was nominated for the Improving Life Chances Award. We wish Janice a very happy retirement.

Record-breaking waiting list for Year 7 admissions

With more parental preference (Year 7 admissions) than any other Test Valley school, we are once again oversubscribed for September 2022. We will be welcoming a year group of 210 (our standard admission is 180) into Year 7 and still have a waiting list of nearly 59!

The War in Ukraine

We have seen, read and heard some horrendous stories coming out from Ukraine since the Russian invasion of this sovereign nation in the last six weeks. Our school and our community stand in solidarity with the people of the Ukraine. In response we had a non-uniform day which raised an awesome £1,105.56 which will be donated to The British Red Cross Appeal.

"Finally, I hope your child has enjoyed this term and, on behalf of all school staff, I hope that you and your families enjoy a pleasant Easter break with perhaps just a little bit of sunshine."

Mr Serridge, Headteacher

'Memorable' annual Blood Brothers trip

The annual visit to watch Harrow Way's staple English literature text 'Blood Brothers' at the theatre is as much a Harrow Way tradition for our GCSE students as calling the school hall an 'audi'. This time, we visited the beautiful city of Bath to watch a typically excellent performance of Willy Russell's famous musical.

Amongst the various themes covered by 'Blood Brothers', one of the most memorable is the discussion of superstition. Somebody definitely tempted fate somewhere for our Year 10 students who were met with a broken down coach and a considerable wait into the early hours of the morning. Despite this the students responded brilliantly, supporting each other and helping keep morale high until the replacement coaches arrived. Often it is the things that go wrong that make enrichment activities and visits as memorable as what goes according to plan. Everyone involved certainly had an adventure and an extra anecdote to tell into the future. Fortunately the Year 11 trip was all rather uneventful!

"Thank you to everyone involved for your resilience and good humour throughout." Mr Fluellen

The Reading Programme continues to be a great success

Across the year groups students are embracing our Reading Programme. KS3 students have requested to read the next instalment of 'Wolf Brother' so will be continuing their adventures into Michelle Paver's world in the summer term.

Year 9 have started their Reading Programme with some cultural capital classics: 'The Secret Garden' and 'Roll of Thunder, Hear my Cry'. With this in mind they will be given a 'lighter' yet equally engaging read by finishing the year with 'Wolf Brother'.

Our Year 10 students have been gripped by the hard-hitting narrative of 'Roll of Thunder' and requested something equally as gripping but from a different genre. 'Woman in Black' has been selected for the summer term in the hope they find the eerie Eel Marsh House as exciting and captivating.

The programme is receiving both high praise and support. On our recent LLP visit, the programme was described as "gorgeous" as both students and tutors continue to find reading collectively a calm and purposeful start to the day. And Hatchett UK publishers donated no less than 1100 bookmarks to our new venture and continue to work closely with the department when it comes to sourcing new texts for the programme.

The English department are also really excited to welcome the new Literacy Prefects into the team and look forward to working with them throughout the summer term and next academic year.

YEAR 8

Year 8 show their character

Someone's character is seen as the qualities that distinguish that person and we're really developing a good understanding of Year 8's character now. As individuals and as a collective we have a pretty good grasp of who you are becoming, and it is encouraging to see.

We build character from moment to moment and I have been into numerous lessons this term and watched students engage with work and each other in a hugely impressive way. Alongside this classroom ethos we continue to flourish in extra-curricular. Congratulations to anyone participating in the wider community of our school; Sports, STEM, Musical, World Book Day and more. I want to say a particular well done to those who were seen and voted for as new student council members.

I am going to use this opportunity to publicly praise Adam Holman who recently advanced through the county cross country and into the South East competition. There is a unique challenge that distance running provides, so that effort is worth all the praise. When you perform on your own, in any field, your strength of character has to come to the fore and it was a pleasure to watch Adam perform and represent Harrow Way so well.

Mr Cole, Year Leader for Year 8

YEAR 11

Year 11 compete their final full term

Year 11 have just officially completed their final full term at Harrow Way. We all remember them in Year 7 - bright eyed, so young and thinking that school was going to last forever. Now in a matter of a few weeks their GCSE exams will officially begin. Where has time gone?

This term has been a busy one for Year 11 with some students already sitting GCSE exams and all of them participating in the Pre Public Exams (PPEs) - which they were amazing at. Many staff complimented their exemplary behaviour during this time; I know the Year 11 team were especially proud.

With our final few 'normal' weeks approaching, prom planning is well underway and we are so excited to celebrate this incredible year group. We know the next term is going to be challenging, albeit short, so we encourage Year 11 to take the Easter holidays as an opportunity to, not only revise, but to have fun and some well-earned rest.

Mrs Woodhead,
Year Leader for Year 11

Mrs Ford, Mr Fluellen and Mr Whitworth spent an entire day meeting and interviewing prospective Senior Prefects just before half term. Students were interviewed in groups of six, giving a short presentation detailing why they felt they would be good for a particular role, before taking part in a round table discussion about big issues and school specific challenges.

Every single student was really impressive and selecting the senior team was a very difficult job! Everyone who was interviewed should be very proud of themselves. We were so impressed by the vision that some students had as to how they felt they could have an impact in the school community that we had to rethink some of the roles in order to accommodate the students' ideas. Senior Prefects have been appointed in: Sports, Enrichment, Digital, Environment, Literacy, Student Council, Year 7 Enrichment and Support, Equality and Year Team support. We will be inviting Senior Prefects to apply for the Head and Deputy Head roles next term.

We are incredibly excited to see what they can do. As Mr Whitworth said in their presentation assembly:

"Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has." Margaret Mead

Historical Association's History Gold Quality Mark

Our excellence in History teaching and learning has been recognised by the Historical Association who has awarded the school their much coveted Gold Quality Mark (QM).

In their report the Historical Association assessor commented: "The provision of History at Harrow Way Community School is strong and forward-thinking. The department works tirelessly to bring History alive for its students, whilst also maintaining high expectations for academic achievement. Staff are involved in CPD beyond the school and support other schools and educationalists nationally. The students are proud of History at Harrow Way, and this is most evident in their motivation and positivity in classes."

Commenting on achieving the accolade, Mrs Brown, Curriculum Leader for History said: "We're very proud that our high standards in teaching and student success in

History have been recognised by a leading organisation such as the Historical Association. We're particularly pleased to have received the Gold QM which is the highest level of award that can be achieved."

FOCUS ON COMPUTING, ICT AND STEM

'Most Innovative Idea' win at First® Lego® League competition

A team of ten Year 7 to 10 students headed to LEGOLAND® hotel resort in Windsor for a recent First® Lego® League competition.

The triumphant team won a trophy for the 'Most Innovative Idea' for their creative solution to improve the journey of products by designing a Bluetooth stamp. Their stamp can be used to track parcels anywhere in the delivery process, not just at the point of being scanned or in a van in order to overcome the issue of scanning machine failure and label damage.

Commenting on the students' success Mrs Robertson, Curriculum Leader ICT and Computing said: "The First® Lego® League competitions are a brilliant way to encourage students to engage in coding, develop their critical thinking and design skills. I am so proud of the team's success. They put hours of research and preparation in ahead of this competition which has seen them excel on the day. Our thanks to Chris, a scientist from the Defence Science and Technology Laboratory for his help with the robot design and to both Stannah and Ocado for their support and feedback

with the innovative project and preparing students for the challenge."

To succeed in the robot competition the students spent hours researching, designing and creating a LEGO® robot. Their problem-solving and coding know-how was put to the test as they were tasked with creating their own practice game table, then build and programme their LEGO® robots in to compete in a series of challenges.

Student Catherine Massey found the experience very enjoyable saying:

"I thought that going to the competition was an amazing experience. It was fascinating to see how other teams approached the competition. Overall I really enjoyed it and had lots of fun."

British Science Week 2022

The theme for this year's British Science Week was 'Growth' so the Science department kept Year 7 and 8 busy investigating the conditions needed for plant growth.

Each year group explored a different factor with Year 7 students looking at the effect of soil nutrients while Year 8 explored which colour of light is best for plants to grow. Students had to be very patient as it took two weeks to get the results!

Year 7 found out that compost provides better nutrients than soil from the

school grounds whereas Year 8 discovered that the red and blue filters were the best for growing their pea plants.

The focus for Year 9 was how to tackle the issue of ever increasing populations so armed with packets of spaghetti our students designed and built some rather impressive skyscrapers.

And for Years 10 and 11 British Science Week was a great opportunity to consider potential careers the STEM subjects can lead to.

Cyber skills put to the test

Pitting their cyber skills against schools across the region a team of Year 8 students headed over to

the NATS Corporate and Technical Centre for the regional CyberFirst Girls Competition final. The team of four spent the day tackling cyber related puzzles from cracking codes, cyphers and cryptography, which covered topics from networking to AI.

The CyberFirst Girls competition is run by the National Cyber Security Centre which is part of GCHQ. The competition aims to inspire girls to consider pursuing careers in cyber security as female representation in the sector is too low, with women accounting for just 16% of the UK's cyber workforce.

Commenting on the competition Mrs Robertson, Curriculum Leader ICT and Computing said:

"With women still very unrepresented in the tech industry we are keen to encourage our female students at a younger age to engage with the subject with a view to more studying Computer Science at GCSE. The CyberFirst Girls Competition was a great opportunity for our team of female students to apply their know-how and skills to a series of challenges. They did incredibly well to reach the regional finals having qualified against hundreds of teams. I hope their success has inspired them and they can see the potential for a future career in the sector."

STEM success

We finished the term on a STEM high with 36 Year 8 students taking part in the IET Faraday Challenge Day. For the day students were engineers working through a series of challenges and their career as they progressed from apprentices through to graduating into a role. Each team had to assign roles from team leaders to accountants.

Having agreed who was who, the challenge was to plan, design and create a prototype for a business. The prototype had to have one electronic element and using 'Faraday' money the team could purchase components such as card,

elastic bands, servos motors and solar panels, battery packs, LED and crocodile clips and also to hire equipment.

The final part of the day was for each team to present their ideas and prototypes. We can't say what the winning project was as it's part of a national competition but we can say that everyone who took part learned so much from planning, team building, electronics and thinking about costs to perseverance, determination and resilience.

Harrow Way awarded the Computer Quality Mark

We are the 19th school in England to be awarded the Computing Quality Mark which is awarded to schools to acknowledge and celebrate the quality of computing provision. To achieve this accreditation we had to demonstrate to NCCE (National Centre for Computing Education) that our computing and ICT provision could meet the rigorous criteria of their framework evidencing our strengths such as our Computing at School hub status, our rich curriculum and extra curricula opportunities and the quality of computing and ICT teaching.

NEWS FROM THE LRC

This has been a busy term for the Learning Resource Centre and Library with so many fantastic events for students to enjoy including Holocaust Memorial Day, LGBTQ+ History Month, International Women in Science Day and National Careers Week, to name just a few.

It was great to see lots of students joining in, earning house points and extra stamps while broadening their knowledge and understanding.

"There's always something going on in here. The displays change a lot so we can see and find out about lots of different things."

Student comment

We believe it's important to build our students' awareness of national and global events and issues – cultural capital is essential knowledge that students need to prepare them for future success.

Our Comic and Manga Club are up and running and we're looking for more students to join us so we can look at producing a Harrow Way comic. We've also starting a well-being and mindfulness lunchtime session - an opportunity to de-stress in a calm and supportive environment.

It's also wonderful to see students take the initiative and lead on setting up clubs they'd like to attend. Congratulations to Piper Travell who has started an after school Poetry and Short Story writing club.

World Book Day

Students once again embraced World Book Day with 16 tutor groups decorating the doors to their rooms in spectacularly creative style. Well done to everyone who took part.

First place for James and the Giant Peach by 8RMC

Second place for Sherlock Holmes by 7JCM

Third place for Charlie and the Chocolate Factory by 7CLM

Fifty Year 8 students earn PiXL Edge certificates

The PiXL Edge Award was created to support students' personal development and to give them an opportunity to hone five desirable qualities as identified by the National Careers Service - leadership, organisation, resilience, initiative and communication. These important skills will serve students well in school, their personal lives but perhaps most importantly, in their future careers.

There are three levels to the award: Apprentice, Pioneer and Graduate. To achieve each level, students have to

complete ten challenges. They are encouraged to try new things and extend themselves as this has proved to have positive outcomes on academic results, and life outcomes too. Students are able to choose their challenges from an extensive list, such as organise a family workout or birthday celebration; raise money for charity; conduct a science experiment or pass a grade exam in a musical instrument. All their hard work is recorded on the PiXL Edge website,

YEAR 7

Year 7 continue to impress

Year 7 have continued to impress after their fantastic start and are becoming more confident throughout the school year. I am extremely proud of the number of pupils still attending extra-curricular clubs. A big mention to Billy King who is looking to start his own 'Harry Potter Club' which will be taking place in the library every Tuesday from 3.00-3.50pm. What an inspirational young man.

The 'Around the board Darts challenge' inter tutor competition concluded this term. Congratulations to 7CAB who win narrowly due to attendance numbers. They will be awarded their prize in this term's celebration assembly.

At the time of writing we're looking forward to this term coming to an exciting finish at the Year 7 Easter party celebration. All attenders will be part of a big Easter raffle with lots of prizes to be won. I'm sure we will have a fantastic time.

Mr Carter, Year Leader for Year 7

Careers Corner

At Harrow Way we are thoroughly committed to providing students with as many opportunities to discuss and experience as many potential post 16 routes and careers as possible.

During both National Apprenticeship Week and National Careers Week this term, students have really enjoyed the opportunity to have more in depth conversations about the world of work and qualifications post school as lessons looked to make even more explicit links than usual between our subjects and the careers to which they might lead.

This is not only an expectation of the National Curriculum and guidelines such as the Gatsby Benchmarks, it is also a rewarding and important part of the job of teaching and we all enjoy exploring

this part of our curriculum with students. All of the subjects on our curriculum, as well as the rich programme of enrichment activities we offer, provide important skills and develop young people towards those very different futures that they are going to face and experience.

Although our older students have distinct careers lessons, all of our students experience regular talks about careers throughout their time with us and visitors from local businesses have contributed to our enrichment programme and assemblies.

House Happenings

This term has been a fairly quiet one for the house teams. We are busy though planning an exciting summer term full of outdoor activities in a COVID safe environment.

We did manage to launch a trick shot challenge competition. This was led by our fantastic House and Sport Captains – thank you! We had some brilliant entries and particularly liked Ruby Clark's video of her training her dog to join in with the challenge and Riley Green's BMX trick shot challenge. Well done to those students for their brilliant entries.

Watch this space – next term is going to be chock-a-block!

YEAR 10

Year 10 step up a gear

This term it has really felt like Year 10 have stepped up a gear and have started preparing themselves to be the new senior members of the school. We have appointed our new Senior Prefect team and 30 Prefects to support in the specific areas around the school community where they feel they are most able to make a difference. We have also had nearly 40 additional applications for the next round of Prefect appointments. The Prefects have just started to meet with the staff with whom they will be working so that they are ready to take over responsibility from the current Year 11 Prefects when they are ready to focus solely on exam preparation.

Many Year 10 students have also said that they have felt an increase in academic focus in their classrooms over this term, with lots of students keen to start the after school support sessions that Mrs German is coordinating. Some Year 10s have already sat their first GCSE exams! Their time with us at Harrow Way is flying by, and I've been really impressed with the focus and dedication that is shown by most Year 10 students as I visit them in lessons.

Mrs Ford, Year Leader for Year 10

Getting inspired at The Army Flying Museum

Students got hands on at this exciting careers event enjoying a number of 'have a go' activities delivered by employers, training providers, education institutions, public and armed services. Students were able to take part in a wide range of activities that gave them exposure to the many diverse roles (professional, technical and craft) employed within these sectors. They also had the opportunity to learn about the various educational options, training courses and apprenticeships from professional employer representatives, career and educational advisers in our area and beyond.

For more information about supporting students with decisions about their futures, check out 'Ways Forward', our weekly newsletter for all things careers and post 16.

YEAR 9

An exciting time for Year 9!

It is hard to believe that Year 9 are now over half way through their time at Harrow Way! Although a huge proportion of this time was spent in lockdown or facing additional restrictions or changes, I am always so proud of how mature our year group are and how resilient they have become. Walking around lessons, it is clear to see the feeling of purpose and the determination to succeed within the year group.

After lots of deliberation, questions and excitement, Year 9 have now made their final GCSE option choices. It has been so lovely having such mature conversations with students about their futures and the careers they see for themselves - I hope you all found this process easy and enjoyed the discussions with your children.

Year 9 had a dropdown PSHE day this term learning all about positive relationships - both with themselves and with others. Again, the maturity shown from all students was impressive, as were the discussions had in each session.

I met with the Year 9 Council this term. I was blown away by their insightful and mature conversations. One thing that came out was wanting to do more for charity as a year group which prompted me to see what more we can do. Alongside the non-school uniform day raising money towards the Ukraine crisis, Year 9 were all photographed making a heart with their hands which we then turned into a mural to show our respects.

Thank you all for your continued support, I wish you all a relaxing and hopefully sunny Easter break.

Miss Fowler,
Year Leader for Year 9

ENRICHMENT CLUBS, SOCIETIES AND SPORTS

Top netball action

Year 7 and 8 Netball Club students enjoyed a visit to the University of Bath to see Team Bath take on top of the league Manchester Thunder. A gripping game to watch with the home side narrowly losing 53-57.

Climbing Club

Members of our climbing club from across the school enjoyed a visit to Bouldershack in Southampton last month.

They continued to develop their personal climbing skills taking on some challenging routes. Their commitment to Climbing Club is superb and the improvement in their climbing has been fantastic.

Netball Club

The Year 7 girls netball team have had a fantastic season and are currently unbeaten in the league. Strong performances by all in the team has meant that plenty of goals are being scored each game, with very few conceded.

Indeed the Year 7s have shown excellent commitment which enabled us to also play a 'B team' friendly against John Hanson, giving all club members a taste of competitive fixtures.

The Year 8s have also had consistently high numbers attending the weekly Netball Club. Most have managed to play a match, where we have had mixed results; some excellent wins and also some narrow defeats.

Rugby

The Year 7s are incredibly keen to improve and their confidence is building. The team enjoyed a great day up at Twickenham where they took part in a Rugby in Motion workshop; learning about the different positions and the components of fitness required for each position, followed by a tour of the museum.

The team then travelled to Orleans Park School in Twickenham to play in their invitational rugby 7s tournament.

Cross County

Our cross country team travelled to Testbourne School in Whitchurch to take part in a qualification race with Harrow Way winning the Year 7 and Year 8 boys race and placing well in the girls races. This allowed some of our runners to go on and represent Andover schools at the Hampshire cross country event in Basingstoke where the standard was incredible. A special mention goes to Adam Holman who finished 15th in the Year 8 boys race.

Football

Football across all year groups has continued to be popular with great numbers turning out to training each week. As we start to wrap up the Andover league fixtures we feel it has been a successful season and look forward to building the numbers and chemistry of our teams for the new season. It's great to have so many students turning up to training each week.

The Year 7 and 8 girls football team have had some excellent fixtures over the last few terms. Although they have yet to win a game, score lines are definitely showing a vast improvement from the start of the year. Confidence from all the girls is mounting the more fixtures that are played. All players have all shown great tenacity and determination.

2022 Calendar

Easter Holiday

Monday 11 April – Friday 22 April 2022

25 Apr 22	Summer term begins
26/27 Apr 22	Year 9 Teenage Booster
27/28 Apr 22	Year 7 and 8 UK Maths Challenge (selected students)
2 May 22	Bank holiday
3 May 22	Musical Dress rehearsal
5/6 May 22	Musical Public Performance
6 May 22	NSPCC Number Day (not non-uniform)
10 May 22	Year 9 visit to Oxford
11 May 22	Year 7 visit to Portsmouth Historic Dockyard
12 May 22	Year 8 visit to Harry Potter World
15 May 22	Year 7-10 visit to the O2
16 May 22	GCSE exams begin
w/c 16 May 22	Non-uniform day in aid of Amazing Alice
w/c 23 May 22	Years 7-10 Maths Assessment this week

Summer Half Term

Monday 30 May to Friday 3 June 2022

13-17 Jun 22	Year 8/9 Calshot residential visit
