Please check individual websites for any changes/booking requirements

A Levels: like GCSEs, they take two years to complete. They are academic, mainly classroom based, and typically are assessed through a large exam. You may also be assessed on practical work as well.

Vocational Courses/BTECs/Cambridge Techs.: They are practical courses that give you a broad base of skills suited for industry. Subject areas include sport, business, health and social care, art, animal management, game development etc. Students are primarily assessed on coursework, possibly some exams and work experience. There are different amounts of BTECs that students can take – from single (subsidiary) to an extended diploma which is equivalent to three A Levels.

T Levels: T Levels were introduced in September 2020, and are technical qualifications, equivalent to 3 A levels. These 2-year courses have been developed in collaboration with employers and businesses so that the content meets the needs of industry and prepares students for work.

Occupational/Job based courses: such as plumbing, hairdressing, motor vehicle mechanics and bricklaying. These tend to build skills for specific careers. These are usually full time courses which cannot be taken alongside A Levels or BTECs.
