I2I TEACHER TRAINING: YOUR POTENTIAL. OUR SUPPORT. THEIR FUTURE

Welcome to our Autumn Newsletter with news and information from the i2i Teaching Partnership SCITT – your local teacher training provider.

Applications are open for a wide range of teacher training opportunities through i2i Teaching Partnership.

We can support you if you are interested in teaching in Primary, Secondary or Special Schools. Please do not hesitate to make contact with us or visit our website [i2i partnership](https://www.i2ipartnership.co.uk) to find out more about what we offer.

At i2i we passionately believe that teaching is such a rewarding and inspiring profession, and our role is to provide high quality training and a supportive learning environment for anyone who wants to become a teacher.

Trainee Spotlight: Luisa & Lacey

Luisa is a Maths trainee from our Southampton Centre, and first worked with i2i as an intern on our programme back in 2024 when she was an undergraduate student at Southampton University. Our Internship Programme runs from the end of June until mid-July.

Louisa: "I had an idea that I wanted to go into teaching but I was able to go into a school for 3 weeks, without the pressure and see what it was like, which confirmed what I wanted to do".

"Because the internship was such a good experience, unlike my large lectures at Uni where I was one of a large group, it was so personal and I was seen as an individual. It was very supportive."

Louisa is able to reflect on this term so far and says: "I've grown so much in this first term and feel like I've come so far; I'm really enjoying it."

Lacey is a Drama trainee also at our Southampton Centre. She explains why she chose i2i Teaching partnership: "I didn't want to be in a big group, such as at Uni, where I didn't always get as much support as I wanted."

She had a family member who recommended being on a SCITT programme. And this term so far: "It is going really well and I'm enjoying it so much; it's amazing how my confidence has grown from when I first started to now, especially when it comes to teaching specific classes. And I really believe that I can do it."

Upcoming Events

Our **Virtual Information Seminars** take place twice a month and a great way to find out more about training to teach with i2i from the comfort of your own home.

We also run **in-person events** at various schools across the partnership throughout the year which include the opportunity to enjoy a tour of the host school.

To find out more and see all available dates and locations please visit the [events page](#) on the i2i website

Internship Programme

We want to support undergraduates as well as postgraduates on their journey to become a teacher and for the past 4 years have offered the Internship programme to undergraduate students.

It is open to those studying Maths, Computing, DT, Physics and Languages.

Interns are able to earn £455 each week, which totals to £1,365 over the course of the 3 weeks. Applications are now open for the summer Interns.

Please click the [link](#) for more information.

Wishing you a very Merry Christmas and a Happy New Year from everyone at i2i
